ginian Railroad Opens the Greatest Coal Fields in West Virginia. Two Hundred Thousand Acres of Untouched Property-Fast Run,

Henry H. Rogers, builder of the new Virginian Railway, and his party arrived in Washington last night aboard a special train from Deepwater, W. Va., the western terminus of the line, and left again at 10:45 o'clock for New York. Mr. Rogers POSED AS MAGAZINE WRITER has just completed the first official inspection of the new coal line, and is highly satisfied with the construction features of his great enterprise.

Mr. Rogers never talks for publication He says that he has never been quoted in print in his life with his consent, but the members of the party who accompany him say that he is pleased with his property, and believes that it will in a short time take its place among the East and West trunk lines, as well as take a position along with the Norfolk and Western and Chesapeake and Ohio as coal

Those in the party include Henry H. Rogers, jr., his only son; Urban H. Broughton, William T. Benjamin, and W. F. Coe, sons-in-law; Charles Lancaster, a London capitalist; A. H. Hopkins, of New York, and Raymond Dupuy, general anager of the Virginian.

CAN BE CURED.

Washington, D. C., July 20, 1908. Prof. H. N. D. Parker,

1022 Ninth st. nw., Washington, D. C.: Dear Sir-Complying with your request for a statement of my case of LOCOMOTOR ATAXIA, I will say that about sixteen years ago I was taken with this disease. The first five years I doctored with several prominent physicians of this city for muscular and sciatio rheumatism. At last I was told that I had an incurable case of LOCOMO-

TOR ATAXIA, and that I might live several years by taking good care of myself.

At the end of eleven years I had lost my eyesight and the entire use of my lower limbs, and was confined to my bed for the next year and a half.

About this time is approximated your About this time in answer to your

About this time in answer to your adv. in a Washington daily, my wife called to see you. Since that time you are acquainted with the history of my case, but for the benefit of suffering humanity, and especially those who have lost all faith in doctors, I make this additional statement to prove that this disease can be cured.

My case was one of the worst that is possible to conceive. After treat-My case was one of the worst that is possible to conceive. After treating with you and under your directions for several months. I was convinced that your enforced circulation was all you claimed for it, and that you would cure me. Thus encouraged, I persisted. The improvement continued in an increased ratio, until to-day I am practically as well as ever except I

creased ratio, until to-day I am practically as well as ever, except I cannot run or jump. My eyesight is perfect and I can walk in the dark as well as I ever could.

I cannot find words to express my gratitude to you for the benefits I have received from your treatment. I had been told so many times by physicians that my case was hopeless that after I saw improvement I would not allow myself to believe it for fear of future disappointment, You are at liberty to send any one to interview me at any time. Wishing you continued success, I am,

Gratefully yours,
